

QUALITY POLICY

Our goal: INNOVATION, QUALITY and RELIABILITY

To achieve this goal:

- Our company has introduced and operates a quality management system documented in accordance with the MSZ EN ISO 9001:20015 standard, for which it assumes responsibility for its successful operation and continuous development.
- We strive to get to know our customers' needs in a timely and thorough manner, so that we can always adapt the quality of our products and services to their expectations.
- When choosing our suppliers and subcontractors, we strive to ensure that they are committed to the quality policy principles of **PLASTRADE Packaging Kft.**
- We expect all our employees to think in a quality- and environment-oriented way, to work responsibly and to provide the best performance.
- For all activities, we employ trained and experienced staff in accordance with the requirements, and we provide:
 - continuous knowledge of special requirements,
 - learning, practice,
 - the possibility of further professional development.

In addition to the application of the relevant technical and safety regulations, the goal set out in the quality policy is implemented by efficient and reasonable use of resources in such a way that it is worthy of the quality, reliability and economy identified with the name of **PLASTRADE Packaging Kft.**
